

Die-cut tapes and adhesives

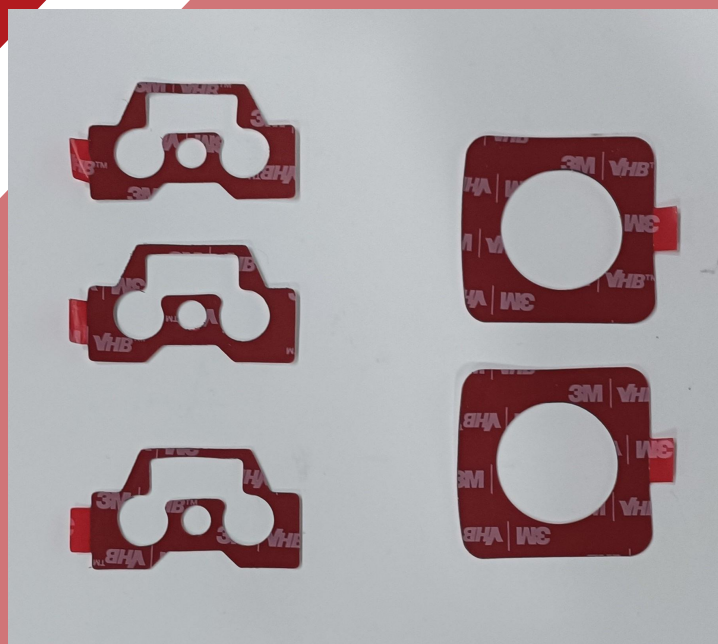

Tack Innovations is your trusted partner for precision die-cut components tailored for the electrical, electronic, and general industrial sectors.

Contact us today to discuss how our customized die-cut solutions can meet your specific needs and enhance your production capabilities.

Key Benefits:

1. **Lightweight:** Easy handling and reduces product weight
2. **Clean:** No mess, ensuring a professional finish
3. **Precise:** Accurate and reliable component placement
4. **Customizable:** Tailored to specific shapes and thicknesses
5. **Durable:** Strong, long-lasting bonds for enhanced product longevity

Applications:

- **Electrical and Electronic Industries**
 - Insulation and shielding components
 - Conductive tapes for grounding and EMI/RFI shielding
- **General Industrial Applications**
 - Seals and gaskets for machinery and equipment
 - Spacers and mounting tapes for precise positioning and attachment
