

WETTASK™ Wet Wiping System

Safe. Simple. Reliable.

Ideal for sanitizing, surface cleaning and degreasing.

KIMTECH™ WETTASK™ SYSTEM

Ideal alternative to using a spray bottle or open bucket in combination with a rag for cleaning and disinfecting surfaces.

Safety

Fully enclosed system to reduce cross contamination, drying of wet wipes, chemical vapours and splashes

Compatibility

Compatible with most industrial solvents, disinfectants, bleach solutions, dilute acids and bases, solvents, detergents and sanitizers

Improved Productivity

Helps save time and effort for a more productive workplace

Portable, Reusable Bucket

Allows you to decide the chemical solution and saturation level needed

About WETTASK™ System

- ✓ **Optimum Disinfection:** Wettask Wipers better maintain the target disinfectant concentration, have very good solvent release properties and are more resistant to abrasion during use.
- ✓ **User Convenience:** a reusable bucket with each case; the user decides the solution that is needed and the saturation level; a fresh, uncontaminated wiper is dispensed each time.
- ✓ **Enclosed system:** prevents wiper & disinfectant cross-contamination; reduces exposure to chemical vapours; prevents accidental splash hazards.

About WETTASK™ System

- ✓ **Versatile:** base sheet designed to suit a variety of tasks and chemical solutions; user can more closely control chemical usage and related costs.
- ✓ **Solvent Saving:** Wettask system helps in saving of the solvent used (up to 20%) as compared to open systems.

Keep Your Concentration

Wettask Wipers better maintain the target disinfectant concentration even over a prolonged period of use.

What types of chemicals and solutions can be used in the WETTASK™ System?

- Soap/ detergent
- Bleach disinfectants
- Hydrogen Peroxide
- Peracetic Acid
- Methyl Ethyl Ketone
- Isopropanol
- Acetone

Product Specifications

- **Product:** The refillable WETTASK™ wiping system is composed of a dry, coreless, center pull roll and a re-usable dispenser. The user adds their own chemical solution to create a pre-saturated wiper.
- **Dispenser**
 - Bucket: made from High Density Polyethylene (HDPE) with a leak resistant cover, dispensing loop and carry handle.
- **Base Sheet:**
 - Hydroknit® base sheet (white), ideal for general surface cleaning.

Product Code	30914
Configuration	Bucket + 6 Rolls
Base Sheet	Hydroknit
Sheets per Roll	60
Sheet Size	315 mm x 305 mm
